PROFILE

Engineering honors graduate from ITB with a focus on scalable backend systems and high-performance frontends. Specialized in the Golang/PostgreSQL/React stack, with a proven track record of optimizing database operations by 80% and deploying production-ready REST APIs. Combines an analytical engineering background with cloud computing expertise (AWS) to build secure, data-driven software solutions.

EXPERIENCES

DIRO (Digital Intelligence Reservation Oracle)

Dec 2025 - Apr 2026

Fullstack Developer Intern

- Architected and migrated 5+ core booking modules to a modular UI system using CVA (Class Variance Authority), reducing CSS redundancy and improving component reusability by 40%.
- Engineered a scalable internationalization (i18n) framework, enabling seamless switching between Indonesian and English across 10+ high-traffic pages.
- Enhanced accessibility and user experience by adding 5 contextual tooltips for icon-based actions.
- Tech stack used: NextJS, Golang, Typescript, ShadcnUI

SINTECH IT SOLUTIONS (PT. Sinergi Inovasi Tekno)

Dec 2025 - Apr 2026

Laravel Developer Intern

- Developed a high-concurrency Doorprize Management System featuring complex winner-selection algorithms and role-based access control (RBAC).
- Optimized Admin UX by implementing server-side pagination and advanced filtering, reducing dashboard load times for large datasets.
- Redesigned data-heavy interfaces by replacing infinite scrolling with a paginated slide-based layout.
- Tech stack used: PHP, Laravel, MySQL

KEBUN DEX (PT. Kebun Online Agrobisnis)

Apr 2025 - Jun 2025

Marketing Analyst

- Conducted quantitative research on supply-demand fluctuations to identify high-growth opportunities and optimize pricing strategies.
- Performed gap analysis on market competitors to refine customer acquisition tactics and improve market positioning.
- Built REST API to fetch UN Comtrade API and clean 10,000+ monthly trade records to serve real-time trade data queries.
- Developed interactive React dashboard to visualize export/import trends, top commodities, and country comparisons.
- Tech stack used: VueJS, Django, Pandas, PostgreSQL

AGRIPACUL (Agricultural Pest Predator Cultivator)

Sep 2022 - Oct 2023

Co-Founder & Web Developer

- Secured Rp 15M+ in seed funding by delivering persuasive business cases to stakeholders; managed end-to-end supply chain logistics for raw materials.
- Managed 2,000 m² of farmland, overseeing heavy resource allocation and end-to-end supply chain.
- Developed a farm-to-consumer e-commerce prototype with 6 core features (product listing, cart, checkout, order management, payment simulation, admin dashboard).
- Resolving 12+ critical bugs and implementing centralized error handling across 15+ endpoints.
- Integrated RajaOngkir API to provide real-time shipping cost calculations and courier options within the e-commerce checkout flow.
- Tech stack used: ReactJS, NodeJS, ExpressJS, MongoDB

EDUCATION

Institut Teknologi Bandung

B.Eng of Agriculture Engineering

GPA: 3.90/4.00

Aug 2020 - Aug 2024

- **Amazon Web Service re/Start**
Cloud Computing

Oct 2025 - Dec 2025

TRAINING

Lumoshive Academy Bootcamp

Nov 2025 - Current

Golang Backend Development

- Implemented a high-concurrency ticketing engine using Go Routines and Channels, handling asynchronous OTP delivery and ticket generation with thread-safety.
- Built and deployed RESTful APIs on a remote Linux server, configuring environment variables, database connections, and application runtime to ensure stable backend service availability.
- Optimized database operations by 80% by implementing batch update queries in PostgreSQL.
- Utilized infrastructure components including database transaction manager, Cloudinary integration for media storage, and structured repository-service architecture in an e-commerce backend API.
- Tech stack used: Golang, Gin, PostgreSQL, Cloudinary, Redis, Docker

ORGANIZATION EXPERIENCES

HIMAREKTA “Agrapana” ITB

Jul 2023 - Jun 2024

Head of Professionalism Division

- **Strategic Leadership:** Led a division to achieve a 100% success rate in Key Results (KRs) by executing 3 large-scale professional development programs.
- **Stakeholder Coordination:** Managed end-to-end event lifecycles, involving coordination with corporate partners and university faculty.

Keluarga Paduan Angklung ITB

Jun 2022 - May 2023

Vice Person of Jatinangor

- **Operations Management:** Directed a team of 15+ members to execute high-profile university events and graduation ceremonies, ensuring seamless logistics and branding.
- **Public Relations:** Increased organizational visibility by establishing 6+ interactive sessions, focusing on cross-campus engagement and community outreach.

ACHIEVEMENTS

- Awardee of **Program Pembinaan Mahasiswa Wirausaha dan Kewirausahaan Mahasiswa Indonesia Expo**, Institut Teknologi Bandung, 2022
- Awardee of **Planned Technopreneurship Program x Technopreneurship Orientation Program**, Institut Teknologi Bandung, 2023
- Awardee of **Program Mahasiswa Wirausaha**, Institut Teknologi Bandung, 2024

TECHNICAL SKILLS

- **Programming Language** : Python, JavaScript, TypeScript, Golang, PHP
- **Frontend Development** : HTML, CSS, ReactJS, VueJS, NextJS
- **Backend Development** : NodeJS, ExpressJS, Laravel, Django, Gin
- **Machine Learning** : NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow
- **Databases** : SQLite, MySQL, PostgreSQL, MongoDB, Amazon DynamoDB
- **Soft Skills** : Leadership, teamwork, communication, problem-solving

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
- **Lumoshive Academy:** Golang Backend Development
- **Digital Talent Development Center:** Fundamentals of Machine Learning, Practical Real Business Application using Machine Learning
- **Dicoding:** Front-End Web Development, Cloud and Gen AI Basics, Back-End Web Development, Generative AI, Data Science
